Army Emergency Relief (AER)

Did You Know?...

...Army Emergency Relief has provided more than \$2 billion in assistance to Soldiers and Families since 1942. That assistance has been provided to more than 3 million Soldiers and Families in the form of no-interest loans and grants, as well as scholarships to Children and Spouses of Soldiers. Each case is evaluated on its own merits and there is no “boiler-plate” answer. AER should be the first stop when a Soldier is confronted with a financial emergency. Contact AER for further information! Let them know how they can be of assistance.

...Army Emergency Relief has reciprocal agreements with the other Service Aid Societies. AER assistance is available at any of the 76 AER sections located on Army installations around the world. However, if you find yourself in a situation where you are not near an Army installation, AER has agreements with the Air Force Aid Society, the Navy - Marine Corps Relief Society and Coast Guard Mutual Assistance. All can and have processed AER assistance requests.

Additionally, if you are not near any military installation, AER also has an agreement with the American Red Cross. Just call their 24-hour call center at 877-272-7337 and they can process your request.

Weather and Wildfire Information

Flood: Flooding is the most common natural disaster and can occur anywhere. Flooding can be localized in a particular neighborhood or widespread, affecting entire cities or large portions of states and territories. Floods can develop over a period of days, giving you adequate time to prepare; however, flash floods can develop in a matter of minutes.

Flash flood waters can be caused by heavy rain, levee breaches or dam failures. Rushing flood waters can be deeper and stronger than they look. These waters are also destructive and can carry debris, rocks and mud. The Ready Army website provides information on how to prepare for a flood and what to do if there is a flood.

Wildfire: Fire season in Central Texas is typically May through October. However; Fort Hood is subject to range fires year around as we conduct training in our established range and training areas. Wildfires can start unexpectedly and spread quickly. You may not be aware of a wildfire until you are in danger, so it is important to be prepared.

AtHoc – Integrated Warning System Fort Hood Mass Warning and Notification System

AtHoc is an emergency mass notification system that provides Fort Hood with an effective and reliable Mass Warning and Notification System that can be used during a crisis to warn affected military and DA civilian personnel. The Integrated Public Alert and Warning System (IPAWS) is similar to the Amber Alert system and is used on Fort Hood to alert and warn all personnel in the Fort Hood area who are using a cell phone / smart phone. The AtHoc system relies on the contact information provided when individuals register with AtHoc on-line. The AtHoc system alerts via multiple and redundant means, including computer desktop notifications (pop-ups), land line phones, mobile phones, emails and SMS texts. This allows the Fort Hood Installation Operations Center to notify personnel of an active or emergent event on the installation, or emergency instructions on necessary actions to take during a large scale emergency.

Visit Fort Hood page at <https://home.army.mil/hood/> for AtHoc registration instructions (click AtHoc Information link).

******AtHoc Migration to Alert! Mass Warning and Notification System******

Fort Hood Installation will be migrated from the AtHoc MWNS to the Army-owned Alert! Enterprise MWNS. Migration will begin Tuesday, 22 October 2019 and expected completion by Friday, 25 October 2019.

Once the migration is complete, anyone logging into an Army computer or network via the .mil connection not previously registered within the Emergency Management Modernization Program's instance of AtHoc will be prompted to register their information in the Alert! MWNS.

Alert! MWNS gives the chain-of-command the ability to notify you in the event of an emergency. The Alert! MWNS can communicate via desktop pop-up, telephone, SMS, and email. Ensuring your information is updated and correct will help increase notification capabilities and response times in emergency situations.

During emergencies, it is critical to be able to quickly and accurately inform Fort Hood personnel in real-time, notify them of threats, and provide them with instructions. To effectively and quickly reach a mass audience and targeted individuals / groups, the notification system relies on the contact information you provide when registering with Alert!.

Fort Hood Community Information

Steps to register, update, and modify your information in the Alert! MWNS will be post to the Fort Hood website once migration is complete.

For more information, contact Mr. Fred Corbin, USAG, Fort Hood Emergency Management Coordinator at (254) 553-2782 or Mr. Ed Rivera, Chief, Installation Operations Center at (254) 287-1994.

See Something, Say Something

Suspicious activity is any observed behavior that could indicate anything from criminal activity to terrorism-related crime. This can include seeing unusually placed items or situations that are out of the ordinary, a person eliciting information such as the operations or security procedures for a facility or the personnel employed, or someone paying unusually close attention to facilities or operations beyond casual or professional interest. Some of these activities could be innocent.

It is up to law enforcement to determine whether the behavior warrants investigation. The activities above are not all-inclusive, but have been compiled based on studies of pre-operational aspects of both successful and thwarted criminal and terrorist events over several years.

Informed, alert communities play a critical role in keeping us safe. We can all help in keeping our community safe by paying attention to our surroundings and reporting suspicious activity to local law enforcement. If you see suspicious activity, report it to 288-COPS (2677) on Fort Hood or your local law enforcement agency immediately. Describe specifically what you observed to include who or what it was, when you saw it, where it occurred, and why it's suspicious. Your diligent observation and reporting of any suspicious activity could help someone in your community or prevent a crime or even a terrorist event.

For more information, contact Ms. Cynthia Garcia (254) 287-8316, USAG Fort Hood OPSEC Manager.

Fort Hood Critical Information List

Operations Security protects sensitive, but generally unclassified information that is critical to our mission. Critical information consists of *specific* facts about our *capabilities, activities, limitations and intentions* (CALI). The critical information is so vital to the mission that if the adversary obtains it, correctly analyzes it, and acts upon it, the compromise could prevent or seriously degrade mission success. The Critical information List (CIL) documents an organization's critical information that should be protected. The Fort Hood CIL is as follows:

- **Sensitive Reports:** reports containing sensitive and / or personally identifiable information (PII) or information pertaining to mission readiness such as blotters, battle damage assessments, recall rosters, manning documents, etc.
- **Emerging Tactics, Techniques, and Procedures (TTP):** newly administered TTPs to improve mission effectiveness such as ways to avoid or detect IEDs, convoy protection methods, etc.
- **Network & Communications Related:** call signs, frequencies, passwords, Automated Information Systems (AIS) protection (types used, measures, and procedures), changes in message volume, etc.
- **Security Plans and Procedures:** Random Antiterrorism Measures, shift change for guards, changes in Force Protection Conditions (FPCON), Defense Conditions (DEFCON) or Information Conditions (INFOCON), etc.

Fort Hood Community Information

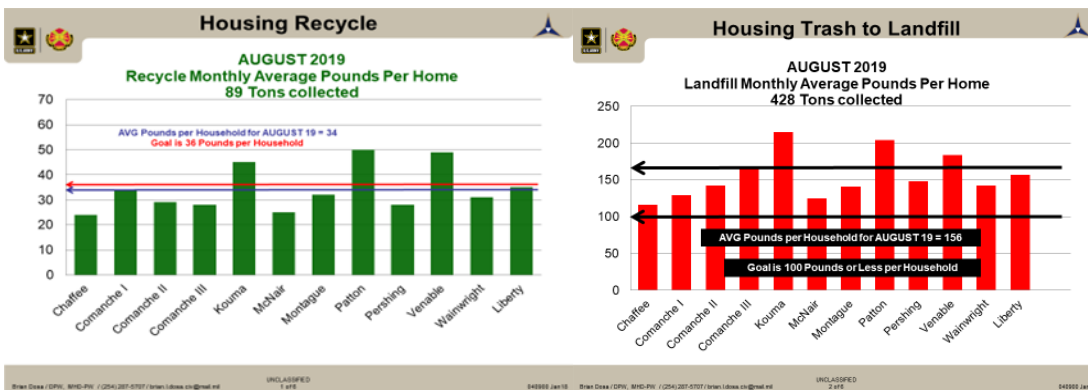

- **Intelligence, Surveillance and Reconnaissance (ISR):** intelligence resources, collection techniques, ongoing operations and goals, counterintelligence operations, etc.
- **Troop Movements & Travel:** deployment / redeployment Date-Time-Group (DTG), locations, itineraries, ports, routes, embarkation points, VIP / High Risk Personnel (HRP) travel, TDY orders, leave for large groups or entire units, emergency recall of personnel, etc.
- **Information Pertaining to Current / Future Operations (FUOPS):** deployment plans, exercises, scope of operations, planning details, specific Courses of Action (COA) for forces, Rules of Engagement (ROE) / Rules for Use of Force (RUF), Military Information Support Operations (MISO), and Military Deception operations (MILDEC), Security Access Program (SAP) elements in contracts, etc.
- **Vulnerabilities:** a condition that allows the adversary time to observe, orient, decide and act against us in areas such as critical infrastructure, building schematics that show security weaknesses, physical security shortfalls, etc.
- **Equipment Specifications and Limitations:** shortfalls, vehicle schematics, vehicle battle damage assessments, weapons systems, research and development (R&D) projects, electronic systems, software used in new systems, etc.
