### Road Closure:

Effective May 30, 2017, the Mohawk Gate (ACP 15) changed hours of operation to 5:00 am – 6:00 pm. Traffic throughput levels did not necessitate the continued operation of this gate past 6:00 pm. The DES continues to analyze traffic throughput and will make adjustments as necessary.

• • •

### Effective Tuesday, September 1, 2015, the installation access processes changed as follows:

- All Soldiers, Family Members, DoD Civilians, Retirees and any other DoD identification card holder will show their DoD ID at the gate for entrance to the installation. Passengers (with proper ID) can be escorted onto the installation.
- Customers who routinely access Fort Hood can get an extended access pass at the visitor center, i.e. contractors, school teachers, bank workers, but will not be able to escort other visitors. These customers can get a bulk issue of passes for their employees. Business owners or management staff will submit a memo to DES with employee(s) name(s), date of birth, driver's license number / state ID and last 4 of social security number.
- All non-DoD drivers and passengers are required to report to the Visitors Welcome Center to obtain an installation access pass. Children under 17 years of age may be vouched for by an adult.
- The Visitors Welcome Center is open 24 hours per day.
- There is no change to the firearms registration program. All firearms must be registered prior to transporting onto Fort Hood. Firearms registration can be completed at the Visitors Welcome Center or the Military Police station on 58th and Battalion Avenue.

### III Corps and Fort Hood Annual Emergency Management All Hazards FY18 Full Scale Exercise

The Installation will conduct a Full Scale Exercise (FSE), Multi-Jurisdictional Improvised Explosive Device (IED), May 22-24, 2018. Emergency response procedures will be in effect May 22, 2018 with ongoing administrative follow-up occurring through May 24, 2018. The exercise is conducted on an annual basis in order to stress Emergency Management (EM) critical elements of Command and Control (C2), mass warning and notification, community awareness, activation of local support agreements, execution of notification protocols, actions of first responders, first-receivers response, medical response, religious support response, Family assistance response and coordination support with our local, state and federal agencies.

During the FSE, individuals may see and/or hear emergency vehicles responding to a notional emergency incident including Soldiers and Civilians role playing as casualties. Specific incident locations are not disclosed in an effort to maintain realistic response. We anticipate minimal impact to routine traffic on the installation including the housing areas and school drop off and pick up locations.

The exercise will begin with the giant voice test message, "Attention, this is a test of the Fort Hood emergency warning system. This is only a test. If this had been an actual emergency, additional instructions would be broadcast. This is only a test." Additional mass warning and notification systems (computer pop-ups and telephonic notification) may also be used to simulate commands such as "Shelter in Place" or "Lock Down" or "Personnel should remain indoors." All exercise instructions will be preceded and followed by "EXERCISE, EXERCISE, EXERCISE." Residents should not be alarmed and need not respond.

Our Public Affairs Office will make additional announcements via the Sentinel and other media to inform the Greater Fort Hood community. The DPTMS Emergency Manager is scheduled to provide a briefing about the FY18 FSE at the April CSC.

### ***See Something, Say Something***

Suspicious activity is any observed behavior that could indicate anything from criminal activity to terrorism-related crime. This can include seeing unusually placed items or situations that are out of the ordinary, a person eliciting information such as the operations or security procedures for a facility or the personnel employed, or someone paying unusually close attention to facilities or operations beyond casual or professional interest. Some of these activities could be innocent. It is up to law enforcement to determine whether the behavior warrants investigation. The activities above are not all-inclusive, but have been compiled based on studies of pre-operational aspects of both successful and thwarted criminal and terrorist events over several years.

Information, alert communities play a critical role in keeping us safe. We can all help in keeping our community safe by paying attention to our surroundings and reporting suspicious activity to local law enforcement. If you see suspicious activity, report it to 288-COPS (2677) on Fort Hood or your local law enforcement agency immediately. Describe specifically what you observed to include who or what it was, when you saw it, where it occurred, and why it's suspicious. Your diligent observation and reporting of any suspicious activity could help someone in your community or prevent a crime or even a terrorist event.

For more information, contact Mr. James Brooks (254) 287-6026 or Ms. Lacey Eide (254) 285-6412, USAG Fort Hood OPSEC Managers

## Fort Hood Critical Information List

Operations Security protects sensitive, but generally unclassified information that is critical to our mission. Critical information consists of specific facts about our capabilities, activities, limitations and intentions (CALI). The critical information is so vital to the mission that if the adversary obtains it, correctly analyzes it, and acts upon it, the compromise could prevent or seriously degrade mission success. The Critical information List (CIL) documents an organization's critical information that should be protected. The Fort Hood CIL is as follows:

**Sensitive Reports:** reports containing sensitive and / or personally identifiable information (PII) or information pertaining to mission readiness such as blotters, battle damage assessments, recall rosters, manning documents, etc.

**Emerging Tactics, Techniques, and Procedures (TTP):** newly administered TTPs to improve mission effectiveness such as ways to avoid or detect IEDs, convoy protection methods, etc.

**Network & Communications Related:** call signs, frequencies, passwords, Automated Information Systems (AIS) protection (types used, measures, and procedures), changes in message volume, etc.

**Security Plans and Procedures:** Random Antiterrorism Measures, shift change for guards, changes in Force Protection Conditions (FPCON), Defense Conditions (DEFCON) or Information Conditions (INFORMATIONCON), etc.

**Intelligence, Surveillance and Reconnaissance (ISR):** intelligence resources, collection techniques, ongoing operations and goals, counterintelligence operations, etc.

**Troop Movements & Travel:** deployment / redeployment Date-Time-Group (DTG), locations, itineraries, ports, routes, embarkation points, VIP / High Risk Personnel (HRP) travel, TDY orders, leave for large groups or entire units, emergency recall of personnel, etc.

**Information Pertaining to Current / Future Operations (FUOPS):** deployment plans, exercises, scope of operations, planning details, specific Courses of Action (COA) for forces, Rules of Engagement (ROE) / Rules for Use of Force (RUF), Military Information Support Operations (MISO), and Military Deception operations (MILDEC), Security Access Program (SAP) elements in contracts, etc.

**Vulnerabilities:** a condition that allows the adversary time to observe, orient, decide and act against us in areas such as critical infrastructure, building schematics that show security weaknesses, physical security shortfalls, etc.

**Equipment Specifications and Limitations:** shortfalls, vehicle schematics, vehicle battle damage assessments, weapons systems, research and development (R&D) projects, electronic systems, software used in new systems, etc.
