WE ARE THE ARMY'S HOME

WHAT IS COMBINED ARMS?

Combined Arms (CA) is the nation's most effective and efficient closed-loop referral network of local, state, and federal agencies. We provide veterans and military families with a seamless and user-friendly digital marketplace experience for accessing social services. Each of our network partners goes through a comprehensive vetting and validation process to ensure the highest standards of service delivery are met. We stand ready to partner with state's Department of Veteran Services to advance the delivery of solutions to the military and veteran community.

WHERE DO WE SERVE?

Combined Arms has 650 vetted and validated network organizations on the platform, 63 of which are national, enabling CA to serve all major social service categories in all 50 states and 2 US territories. In addition, CA has the following partnerships:

- Selected by the White House Challenge to End Hunger and Build Healthy Communities based on collective work in social determinants of health, specifically food insecurity
- Statewide contracts with Veterans Affairs agencies to serve as the single solution for all of Texas, Virginia, and South Carolina
- Partnership with The George Bush Presidential Center live in all 50 states connecting veterans with PTSD, TBI, MST to clinical care
- Pilot-Partnership with the USO to access veterans 18 months prior to separation date

How It Works

Clients create a profile in the Combined Arms network. Results from the profile can guide the client to services they need.

When a Client makes a connection with a specific service, that organization is contacted directly by the Combined Arms network.

After the Client has worked with the organization, feedback, and outcomes are gathered. The Client can request more services at any time.

RESOURCE CENTER

The lack of awareness of resources is prevalent among transitioning service members. Furthermore, it is difficult for user to discern that caliber of service providers. Combined Arms ensures that every organization in the system passes a rigorous due diligence process, and hold organizations accountable for their performance. Users are able to navigate a simplified version of the complex local, regional and national landscape of veteran services that is customized just for them. They can navigate these resources with the confidence that each organization has been vetted, trained, and committed to our “No Wrong Door” policy.
