Fort Hood Net Zero Waste Program

2020 "Perfect Vision, Perfect Mission"

SOLDIERS ★ FAMILIES ★ ARMY CIVILIANS

ARMY STRONG.

What is Net Zero Waste?

Net Zero Waste is a holistic strategy to reduce and reuse waste while incorporating emerging best practices, such as single stream recycling and food waste composting, to manage waste at Army installations with a goal of reaching zero landfill by 2020.

SOLDIERS ★ FAMILIES ★ ARMY CIVILIANS

ARMY STRONG

Net Zero Culture

Goal: Change culture at Fort Hood to achieve Net Zero Waste.

Key Tasks:

- Rethink and Reduce amount of resources used.
- Re-purpose and Reuse whenever possible.
- Recycle and Compost waste resources.
- Identify technologies and strategies to reach Net Zero.
- Employ aggressive strategic communications campaign through conservation education, incentives and training.

End State: Fort Hood Community has embraced Net Zero and is actively supporting the effort.

SOLDIERS ★ FAMILIES ★ ARMY CIVILIANS

ARMY STRONG

Why Should You Care?

- \$4M annually to operate the landfill and provide trash collection.
- Each person throws 2.6 lbs of material into the landfill every day.
- Everyone in the Fort Hood community plays a vital role in the installation's Net Zero Waste efforts by actively reducing, reusing and recycling waste.

What is in our Waste?

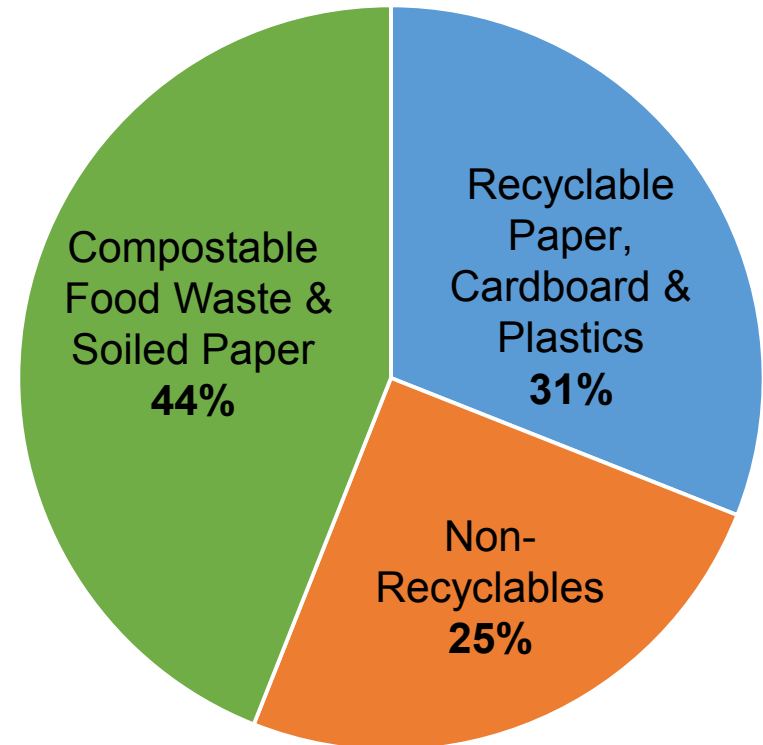

- 75% of everything going into our landfill has the potential to be composted or recycled.
- Single Stream Recycling has made this much easier.
- Composting installation-wide will be available starting in FY18.

Did you know?

- *We throw cash in the trash everyday!!!*
- *In FY16, approximately 4,861 tons of recyclables went into the landfill!*
- *\$583,320 could have gone back to Soldier unit funds!*

Fort Hood Landfill Composition 2016

ARMY STRONG

Where Can You Start?

Reduce

- Avoid purchasing disposable single use items (dinnerware and food-related items).
- Purchase items in bulk and in concentrated form if available.
- Reduce printing requirements and set printers to default to double-sided.
- If printing is required, print multiple pages per sheet of paper.

- Convert all required printed forms for signature into electronic signature forms.
- Conduct weekly inspections of trash cans and avoid purchasing the items that are found.
- Promote DFAC dining to reduce food-related waste and packaging.
- If bringing food from home, reduce waste that could be generated from those meals.

SOLDIERS ★ FAMILIES ★ ARMY CIVILIANS

ARMY STRONG

Where Can You Start?

Repurpose & Reuse

- Promote the use of reusable bags during grocery shopping.
- Purchase reusable batteries as much as possible.
- Purchase products with recycled content (paper, pens, other supplies).
- Participate in the installation-wide yard sales in housing and in the barracks.
- Take all unserviceable government-owned property to DLADS by calling 287-7763.
- Share excess materials (military equipment, excess POL products and furniture) with other units.
- Donate household hazardous materials (e.g., cleaners) to the Classification Unit for reuse.

SOLDIERS ★ FAMILIES ★ ARMY CIVILIANS

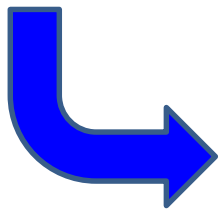

ARMY STRONG.

Single Stream Recycling

What can you
put in your
blue bins?

Cardboard

Cereal Boxes
Food Boxes
Pizza Boxes
Packing Boxes

Plastic

Plastics 1-7
Jugs
Bottles
Styrofoam #6

Metal

Soda Cans
Tin Cans
Steel Cans
Energy Drink Cans
Aluminum Cans

Paper

Magazines
Newspapers
Phone Books
Office Paper
Catalogs
Books
Junk Mail

Glass

Bottles
Jars

Now you can
use one
container to
collect all
your
recyclables!

No plastic bags, film, and wrappers in the recycling containers!

To prevent equipment damage and help Fort Hood increase its recycling, plastic bags, film, and wrappers must come directly to the Recycle Center.

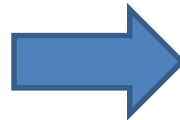

**NO SORTING!
RECYCLING JUST GOT EASIER!**

Single Stream Recycling

- Fort Hood Recycle offers a single stream recycle program, allowing for recyclables to be commingled.
- Be sure to place your clearly labeled blue recycle bins next to trash cans to prevent placing the wrong material in the wrong bin.
- The sorting equipment and reconfiguration increase the Recycle Center's processing capacity from 8,500 tons to 18,000 tons per year. Take a tour to see the upgrade!
- Cardboard, plastic, metal, paper, and glass can now go into the same blue bin.
- Miscellaneous recyclables will need to be taken to the Recycle Center.

Miscellaneous Recyclables

Recycle these miscellaneous recyclables at the Fort Hood Recycle Center.

2020 "Perfect Vision. Perfect Mission"

Net Zero Waste

April 19, 2011, Fort Hood was selected as a Net Zero Waste pilot installation to reach zero landfill by the year 2020. This new challenge brings re-energized awareness on the importance of the Sustainability Program and helps to highlight where Fort Hood needs to prioritize limited resources.

In Fiscal Year 2015, the municipal solid waste diversion rate was increased to 53%, and Fort Hood has decreased the amount of material that enters the landfill by 25% over the past few years. However, Fort Hood still puts 48 tons of waste into the landfill every day, so we have a long way to go to reach our goal of zero waste by 2020. The entire installation looks forward to improving our diversion rates and increasing the amount of material recycled by overcoming obstacles and working together to make NZW

PLAYLIST Net Zero 2020

2020 "Perfect Vision. Perfect Mission"

"As one of the Army's Net Zero Waste installations, Fort Hood has set the goal of minimizing the amount of material we put into our landfill. Since becoming a pilot in 2011, we have reduced our waste by 25%, but we still bury nearly 50 tons a day, half of which could have been recycled. In order to be successful, I urge that each of us do our part to REDUCE, REPURPOSE and then RECYCLE. It is the right thing to do and will save Fort Hood and the Army precious funds that we could use for other priorities. Recycle profits support many MWR programs on post each year, including Freedom Fest and Music on the Lawn concerts."

Todd M. Fox
Colonel, U.S. Army
Fort Hood Garrison Commander
